

Speed Calling

This service lets you call frequently called numbers by dialing only one or two digits. Speed Calling is available in either 8 or 30 number capacities. These numbers can be Local, EAS, ECC or long distance.

Speed Calling 8

To program:

- Assign a one-digit code (2-9) to each of the frequently called numbers you wish to program.
- Listen for dial tone and press *74 (or dial 1174 on a rotary phone).
- Wait for a second dial tone, then dial the code you selected followed immediately by the phone number you wish to program. Be sure to include 1 + the Area Code of any long distance numbers.
- You may press the # button or simply wait until you hear two beeps which confirm that your number has been accepted.
- Hang up if done or wait for dial tone and repeat steps above to add additional numbers or change existing numbers on your speed call list.

Speed Calling 30

To program:

- Assign a one-digit code (20-49) to each of the frequently called numbers you wish to program.
- Listen for dial tone and press *75 (or dial 1175 on a rotary phone).
- Wait for a second dial tone, and continue as noted above.

To call a number on your list:

- dial the assigned code followed by the # key (on a rotary phone, dial 1-1 followed by the one or two digit code).

This feature will work on any phone on your line. Keep a current list of your Speed Calling numbers near each of your telephones.
